Wonders of Aviation

Inspiring and Supporting Tomorrow's Aviation Leaders

www.wondersofaviation-southafrica.org

Wonders of Aviation (WoA) & the Council for Scientific and Industrial Research (CSIR) proudly present an exciting afternoon for the previously disadvantaged that teaches how wind tunnels and aeronautical engineers work together to design better aircrafts. WoA has invited mentors and award winners to this event, along with individuals who have helped WoA become what it is today.

Location: CSIR, Muring Naub Road, **North Gate Entrance**, Brumaria, Tshwane

Facilities: CSIR has 7 wind tunnels that enable South Africa to test the aerodynamic features of everything from cars to supersonic jets and rockets. **These are restricted national facilities that require that everyone be pre-approved.**

Transportation: Please inform us when you RSVP if transport to CSIR is required.

RSVP: No later than 20 June 2017.

Schedule of Activities

- **14h00** Welcome and outline of the day's activities (Dy Moonsammy)
- **14h15** Main wind tunnel tour
- **14h45** Separate group into 2 teams
- **14h50** Project briefing (Dr. Glen Snedden)
- **15h00** Second wind tunnel tour
- **15h20** Test project in wind tunnel
- **15h40** Refreshments and collaborative learning survey (Dy Moonsammy)
- **15h50** Thank you (Dy Moonsammy)
- **15h55** Closing and briefing for 2017 Aeronautical Society Aerospace Challenge (Dy Moonsammy and Dr. Glen Snedden)
